

Re: DaVeer Electrical & Mechanical Contracting Inc.

To Whom It May Concern:

I have worked on numerous projects with the help of DaVeer Contracting since 2000. They were highly recommended by an associate and have never regretted teaming up with them.

Initially they remodeled a new office space for our company and all of the components that involves. From General Construction, Electrical, planning/design and anything needed to make this happen.

Since our move...I have utilized Daveer Contracting for all of my company needs. I have called them with Emergency problems out of the blue & they were very receptive, understanding & helpful. I often have felt like I was their only customer but I know better than that as they have expanded & grown over the years.

In 2006 they designed, engineering, installed our Generator along with electrical needs of our UPS and Auto-Start. Also installed a specialized Air Conditioning system for our computer/equipment facility.

I have found DaVeer Contracting to always maintain high work ethics, keeps time lines & schedules, HONEST, easily accessible (returns all calls!!), organized and thorough. Through the years I have gathered professionals around me to allow the pros do their job & let me excel at my job. DaVeer Contracting is one of those few companies that has made my professional life easier.

Feel free to contact me as needed.

Best regards,

Susan L. Eaves
